

# Awake Your Church

*Rob Nightingale and Terry Nightingale*

*Verse 1:*

**C**                    **C G/B Am**  
We have seen and now we can't unsee  
                         **F**                    **C**                    **G**  
Every empty mouth to feed, every slave in darkest need  
**C**                    **C G/B Am**  
We have learned and now we can't unlearn  
                         **F**  
Homeless walking through the streets  
   **C**                    **G**  
Homes where death and violence meet  
         **F G Am G/B**  
We stand up

*Chorus:*

**F**                    **C**  
It's time to be your hands and feet  
                         **Am**                    **G**  
To hear your call and serve the weak  
**C/E F C G**  
Together rise and make a mark upon this world  
                 **F**                    **C**  
Now is the time, to make our stand  
                 **Am**                    **G**  
To fight injustice, heal our land  
**C/E F C G**  
Christ has come and sent us out, so we will go

*Verse 2:*

**C**                    **C G/B Am**  
Let hope arise in this broken world  
                         **F**                    **G**  
God is sending out His church, His Kingdom's coming on the earth  
**C**                    **C G/B Am**  
Let light break forth, shining like the dawn  
                         **F**                    **G**  
As we beckon to His call, sharing good news to the poor  
         **F G Am G/B**  
We stand up

*Bridge:*

**F**                    **Am C G**  
Awake your church, revive these bones  
**F Am G**  
Let Your Kingdom come through us  
**F Am C G**  
Inspire love, and stir our hearts  
**F Am G**  
Let Your will be done through us
